All media are requested to view the Rally Media Safety video:

<https://youtu.be/zrBS4iJOMBU>

Media Safety and Identification

1 - It is acknowledged that the media play an important role in the FIA World Rally Championship and that each member of the working media must be permitted to carry out his or her work in the best possible conditions.

2 - However, the media is not exempt from having to respect safety rules and should always bear in mind that their behaviour in terms of safety is also an example to spectators. In general, respecting the safety rules should not interfere with their ability to perform their duties. Nevertheless, safety will always take precedence.

3 - Media are divided into two groups:

a) MEDIA-mediapasses,namedandnumbered,issued by the FIA or event organiser.

b) TABARD MEDIA - media passes, named and numbered, issued by the FIA or event organiser, plus numbered tabards issued by the FIA.

4 - Only media representatives wearing a media pass and FIA WRC tabard will be granted access to reserved areas on the special stages where spectators are not allowed. These areas are marked in the events Media Safety Book with blue color. All other members of the media must remain in designated spectator areas on the stages.

5 - Media representatives wearing a tabard must ensure it is clearly visible at all times and not covered in any way. Tabards are allocated on a strictly named basis and are non-transferable. Failure to comply with this will result in the immediate withdrawal of the tabard.

6 - If, in the opinion of a marshall, official, police officer or the FIA Safety Delegate, the wearer of a tabard is located in dangerous area he or she will be asked to move. If this instruction is ignored, a written report of the incident, detailing the number of the tabard, must be sent to the Clerk of the Course, who will immediately forward it to the FIA WRC Media Delegate.

7 - Having heard the parties, the FIA WRC Safety Delegate may a) impose a reprimand, which will be taken into account in the event of a further offence, b) withdraw the accreditation for one or more days of the current or following event(s), c) refer the matter to the Stewards of the Meeting, d) refer the matter to the FIA Media Communications Group (formerly the Press Council).

Driving on Special Stages

Driving on the stages will only be allowed to media vehicles accredited as "WRC TV" or "MEDIA TABARD" together with the 120-minute sign. These are authorized to drive through the stages from the start, according to the following rules: Access of vehicles to the start of a special stage is allowed until the media road closing time (120 minutes before the start of the first rally car). Times will be strictly adhered to and defined accordingly to the official rally time. When entering through the stage start, please find your parking spot quickly and safely and, once you are parked, do not move the car. All media cars must be parked no later than 30 minutes before the start of the first rally car. After the first or the second passage of the rally cars, media are allowed to exit the special stage towards the direction of the rally route, but only after the passage of and accompanying the sweeper car. Entrance to a special stage by an access road is not allowed to any car, except emergency vehicles.

Media Tabard Parking Spaces near Special Stages

In order to ease the work of the media, the organisers will provide parking areas (if possible) for media tabard identified cars near the access to some Spectator Area (ZE). In every Special Stage there will be a Spectator's Area in which access road there will be a dedicated parking area for cars holding a Media Tabard plate.

Tabard Media Photo Areas (ZF)

Marshalls in these areas are prepared for the presence of media representatives with tabards. However, safety will always be their priority. Media are allowed to move within the limits of these safe and exclusive zones. Wherever possible, the use of red tape and artificial barriers will be reduced to a minimum, set at a lower level and as far away as possible from the road.

Spectator Areas (ZE)

Areas defined for spectators in the safety media book and/or official program can also be used by tabard media. If safe, marshalls will allow you to walk and/or stand just in front of the spectator barrier/fence. Please respect the marshalls judgement.

Moving along or crossing the Stage

The tabard holders should be allowed to walk along the spectator tape/marker and/or cross the stage during the passage of the rally cars, always in accordance with marshalls' or police officers safety instructions. During the intervals between the passe of the rally cars crossing the track is permitted in accordance with marshals' safety instructions given by marshalls or police officers. Please find a place with a wide view of the road before crossing and respect the instructions given by marshalls or police officers.

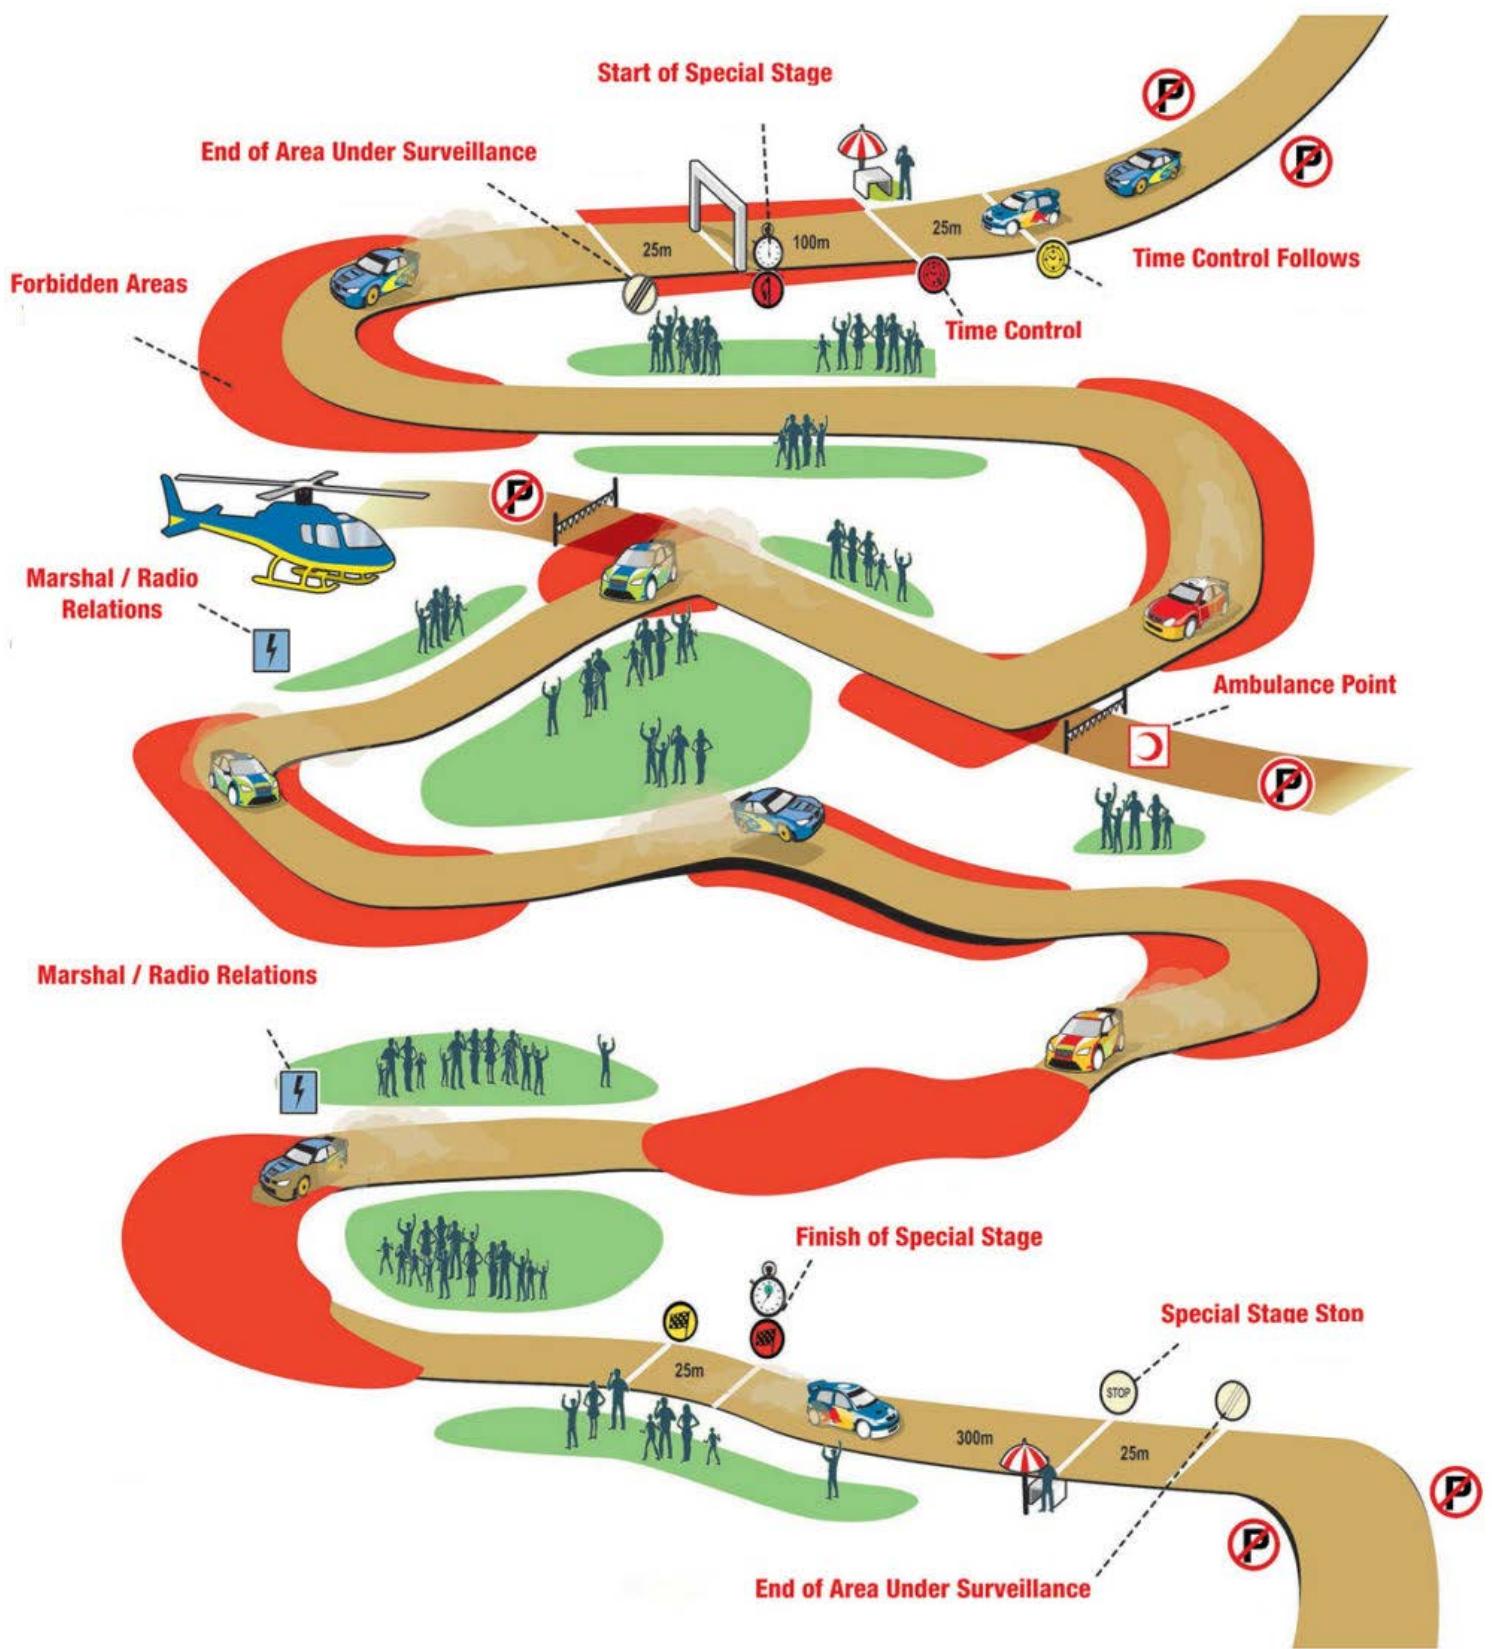

However, when a special stage is live, tabard holders are not allowed to use the rally road or the road banks to walk from one point of the stage to another and may never stand in forbidden areas.

Tabard holders is only permitted in the spectator zones and in the specially prepared media areas. Crossing the track, walk in or along the track or stay in front of the spectator fences is not permitted.

Every special media request should be previously sent to the press officer and approved by Clerk of the Course

Media Tabard are not allowed to remain in NO-GO AREAS.

Following FIA rules drive throught the stage and park the car in a safe place out of the stage, there is a specific place good to park next to the photo zone.

Competitor Safety Information

First Competitor on Scene

If the competitor is still in the vehicle and the vehicle is on fire GET THEM OUT IMMEDIATELY.

If the competitor is still in the vehicle, is responsive and there is no risk of fire:

- Approach from the front, look them in the eyes
- Do they seem aware of their surroundings?
- Speak to them, ask their name - do they respond?
- Any pain, loss of feeling - if yes keep them where they are!
- Keep them calm and keep them talking.
- DO NOT MOVE THEM UNTIL PROFESSIONAL HELP ARRIVES.
- Do nothing else

If the competitor is still in the vehicle, is unresponsive and there is no risk of fire:

- Stop any life threatening bleeding by applying direct pressure/ plugging the wound
- Ensure an open airway
- Immobilise the head and c-spine (neck)
- Check if they are breathing
- Treat any non-life threatening bleeding

DO NOT REMOVE THEIR HELMET UNLESS THERE IS NO OTHER WAY TO ENSURE AN OPEN AIRWAY.

If the competitor is out of the vehicle:

- Do not grab hold of them - they might be unaware of what is happening and become combative.
- Guide them to a place of safety away from the incident and other competitors.
- Speak to them, ask if they are OK?
- Keep someone with them.
- Once in a safe place, assess them for injuries:
 - Are they aware of their surroundings?
 - Any signs of injury / are they experiencing pain?
 - DO NOT LET THEM WANDER AROUND, BUT KEEP THEM UNDER OBSERVATION

Afterwards please write a short report for the organisers and either hand it to the first control official that you reach or to the Competitor Relations Officer. This report should cover the facts as you know them and include times of the incident starting and when you left the scene; always include your own details so that the organisers can, if necessary, contact you.
